

Lyra Plus series remains synonymous to harmonic shapes and classic lines. The choice of a free-standing toilet from the named series is a simple and economical solution, especially for toilets with a simple design, which can be used not only in households, but also in public areas. Thanks to the increased height of 450 mm, the toilet is suitable not only for the seniors and people enduring mobility issues but also for taller people. In addition to horizontal outlet and flat flushing, the toilet offers the Dual Flush system, a water-saving flow with the option of 3 or 6 liters. We provide an extended warranty of 10 years for JIKA ceramic products.
