

INSTALLATION MANUAL

VOXORT

(HR) Upute za montažu, čišćenje i održavanje

VOXORT

and water is so amazing

Before final assembly please note and check that final installation measure don't suit measure in name. Absolute sealing for all doors, side panels and shower enclosure is not possible. High water resistance.

Before Installation

- ❶ Check the contents of the pack carefully before installation. The manufacturer will not be held responsible for any de-fit / re-fit costs where faulty product has been fitted.
- ❷ Handle glass with care. Although the glass supplied is toughened safety glass (to EN12150), impacts can damage both the glass and the frame.
- ❸ Make sure there are no hidden pipes or cables in the wall where you intend to drill.
- ❹ Ensure that the shower tray has been installed as per the manufacturers instructions. The tray should be level, and the walls tiled down to the tray. The horizontal edge between the tiles and the tray must be sealed with silicone sealant, to ensure water-tightness.
- ❺ For your own safety, this product is a 2 person installation, one to stabilise the external side of the product and the other to secure / fit from the inside.
- ❻ Tools required:

Contents

- | | | | |
|---|---------------------------|-----|-------------------------|
| ❶ | 8 wall plugs | ❶❶ | 4 bottom rollers |
| ❷ | 8 M4*30 screws | ❶❷ | 2 left glass clips |
| ❸ | 2 wall channels | ❶❸ | 2 tracks |
| ❹ | 2 fixed glass panels | ❶❹ | 2 right glass clips |
| ❺ | 2 fixed panel water seals | ❶❺ | 8 M4*30 round screws |
| ❻ | 2 door water seals | ❶❻ | 6 capped washers |
| ❼ | 2 doors | ❶❼ | 6 M4*12 screws |
| ❽ | 1 pair of magnetic seals | ❶❽ | 4 top rollers |
| ❾ | 2 pairs of handles | ❶❾ | 4 glass clip screw caps |
| ❿ | 4 plugs | ❶❿ | 4 M4*10 round screws |
| | | ❶❶❶ | 4 water seals |

Installation

1a ↓

1b ↓

1c

1 Fit plugs (10) to the two ends of connection profiles. Fix the connection profile (4) and 2 tracks using M4*30 round screws to form a frame.

2 Fit glass clips to the fixed glass panel, fasten fixed panel to track by tightening the screws of glass clips into the track hole. Cover screws with screw caps.

VOXORT

and water is so amazing

3 Lift the shower enclosure onto the tray and mark position. Take care not to damage the tray when moving the enclosure into position. Use a spirit level, making sure the wall channels are perfectly vertical. Mark through the holes in the wall channels to position where the wall is to be drilled. Remove enclosure and drill fixing holes in the walls using 6.5mm drill. Push the wall plugs into holes.

When fitting the top rollers, make sure the wheel adjuster screw is facing down the length of the glass door facilitate correct wheel alignment.

4 Fix the wall profiles to wall using M4*30 screws. Cover screws with capped washers. Push the frame to wall profiles.

5 Hang the top rollers onto the top track, press the buttons of the bottom rollers to put them into the bottom track.

6 Fit water seal (6) to the door, fit water seal (5) to the fixed glass panel. Then fit magnet seal (8) and handles to the door.

7 Adjust the bottom screws of the top rollers to make the door close perfectly. When one of the top rollers is adjusted to its maximum and the door still doesn't close squarely please stop adjusting it to avoid permanent damage, and begin to adjust the others. Take care not to over-tighten the top and bottom rollers, as the rollers may not swivel and the door movement will not be smooth.

8 Drill a 3mm hole at the top middle and bottom of each wall channel into the connection profile carefully observing the dimensions given. Screw 6xM4*12 screws in place and cover with caps provided. Repeat procedure for the other wall channel.

9 Apply silicone sealant on all external vertical and horizontal profiles that meet the wall and the tray on the outside only. You must not use the shower for 24 hours after the application of sealant.

Cleaning and maintenance

Maintain and clean your cabin regularly to prevent limescale and closing problems. Clean the shower enclosure with a soft cloth and a mild detergent. Do not clean the cabin with aggressive agents such as alcohol, petrol or other chemicals. If the doors are creaking after the cabin is installed, you can put lubricant on the wheel roller, profile.

**UPUTE ZA MONTAŽU,
ČIŠĆENJE I ODRŽAVANJE
BLUE TUŠ KABINE**

**Prije ugradnje provjerite ugradne mjere
budući da se one uvijek razlikuju od
nazivnih. Apsolutno brtvljenje tuš kabina
i/ili vrata/stranica nije moguće.**

Visoka vodonepropusnost.

Prije instalacije

- ❶ Pažljivo provjerite sadržaj pakiranja. Distributer neće prihvatiti nikakve reklamacije nakon što je kabina već postavljena
- ❷ Oprezno rukujte sa staklom. Iako je staklo napravljeno prema sigurnosnoj normi EN12150 udarci mogu oštetiti i staklo i okvir.
- ❸ Provjerite da nema sakrivenih kablova ili cijevi u zidu gdje namjeravate bušiti.
- ❹ Osigurajte da je tuš kada montirana prema uputstvima proizvođača. Kada mora biti postavljena u vagu. Vodoravni rub između kade izida mora biti zabrtvljen silkonom radi vodonepropusnosti.
- ❺ Zbog vaše sigurnosti, za instaliranje proizvoda potrebne su 2 osobe. Jedna da podupre proizvod izvana, a druga da osigura iznutra
- ❻ Potrebni alat:

Sadržaj

- | | | | |
|---|------------------|----|------------------|
| ❶ | 8 vijaka za zid | ❶❶ | 4 donja kotača |
| ❷ | 8 vijaka M4x30 | ❶❷ | 2 lijeva pipca |
| ❸ | 2 zidna profila | ❶❸ | 2 tračnice |
| ❹ | 2 fiksna stakla | ❶❹ | 2 desna pipca |
| ❺ | 2 brtve za fiks. | ❶❺ | 8 vijaka M4x30 |
| ❻ | 2 brtve za vrata | ❶❻ | 6 kapica |
| ❼ | 2 vrata | ❶❼ | 6 vijaka M4x12 |
| ❽ | par mag. brtvi | ❶❽ | 4 gornja kotača |
| ❾ | par ručki | ❶❾ | 4 kapice pipaca |
| ❿ | 4 čepa | ❶❿ | 20 4 vijka M4x10 |
| | | ❶⓫ | 21 4 brtva |

Instalacija

1a ↓

1b ↓

1c

1 Postavite čepove (10) na krajeve spojnih profila. Postavite spojni profil (4) i 2 tračnice koristeći M4x30 vijke da dobijete okvir.

2 Postavite pipce na fiksno staklo, umetnite fiksno staklo u tračnicu i pritegnite. Pokrijte vijke sa kapicama za vijke.

3 Premjestite kabinu na kadu i označite poziciju. Vodite računa da ne oštetite kadu kada postavljate kabinu na poziciju. Koristite libelu osiguravajući da zidni profili budu savršeno okomiti. Označite kroz rupe u profilima mjesta gdje treba bušiti. Maknite kabinu i izbušite rupe u zidu koristeći 6,5mm svrdlo. Stavite zidne tiple u rupe.

Kod montiranja gornjih kotačića treba voditi računa da vijak za prilagodbu kotačića bude okrenut prema dolje kako bi se omogućila korekcija nagiba vrata.

4 Postavite zidne profile na zid koristeći vijke M4x30. Prekrijte vijke kاپicama i ugurajte okvir u zidne profile.

5 Objesite gornje kotačiće na gornju vodilicu, pritisnite tipku na donjim kotačićima da ih možete smjestiti u donju vodilicu.

6 Montirajte brtve (6) na vrata, montirajte brtve (5) na fiksni stakleni panel. Nakon toga montirajte magnetsku brtvu i ručke na vrata.

7 Prilagodite donji vijak na gornjim kotačićima da vam se vrata savršeno zatvaraju. Kada je jedan od gornjih kotačića pritegnut do maksimuma, a vrata se još uvijek ne zatvaraju propisno prekinite pritezanje da izbjegnute trajna oštećenja i počnite pritezati druge kotačiće. Vodite računa da previše ne pritegnete gornje i donje kotačiće kako bi izbjegli zapinjanje tj. kako bi vrata lagano klizila.

8 Izbušite 3mm rupe gore, u sredini i dolje u zidnom profilu kako bi učvrstili okvir vodeći računa o zadanim dimenzijama. Koristite vijke M4x12 i prekrijte ih kapticama. Ponovite postupak i na drugom zidnom profilu.

9 Stavite silikon cijelom dužinom okomitih i vodoravnih profila gdje se dodiruju sa zidom i tuš kadom. Silikon stavite samo sa vanjske strane i nemojte koristiti kabinu barem 24 sata.

Čišćenje i održavanje

Održavajte i čistite svoju kabinu redovito kako bi spriječili nastanak kamenca i problema prilikom zatvaranja. Čišćenje tuš kabine vršite s mekom krpom i blagim deterdžentom. Kabinu ne čistite s agresivnim sredstvima kao što su alkohol, benzin ili ostala kemijska sredstva. Nakon što je kabina postavljena ukoliko prilikom otvaranja/zatvaranja vrata škripe možete sredstvo za podmazivanje staviti na valjak kotača, profil.
